

Mood Notes Prompt

Image Model: Nano Banana Pro

Prompt :

Use the uploaded photo as the fixed source image. Preserve the original subjects, objects, composition, framing, lighting, colors, and overall atmosphere.

Add meaningful handwritten annotations to the visible elements in the image. The annotations should feel personally tailored to the scene rather than generic.

ANNOTATION STYLE

- Use thin white hand-drawn lines
- Keep the strokes rough, slightly uneven, and naturally imperfect
- Use mostly continuous single-stroke outlines
- Trace selected outer edges of important objects without outlining everything
- Add arrows, curved connectors, and dotted guide lines to direct the viewer's eye
- Use casual handwritten lettering that remains clear and readable

- Maintain generous negative space and avoid visual clutter

ANNOTATION CONTENT

Adapt each note to the type of subject:

- Drinks: describe the taste, temperature, energy, or mood
- Food: highlight flavor, texture, aroma, or a memorable detail
- People: reference expressions, gestures, energy, or the feeling they bring to the moment
- Spaces: describe the atmosphere, lighting, sound, comfort, or overall vibe
- Objects: mention their purpose, significance, or connection to the scene

Keep each annotation short, specific, and emotionally meaningful.

Add one concise handwritten summary line that captures the overall feeling of the moment.

DECORATIVE DOODLES

Enhance the image sparingly with small hand-drawn elements such as:

- Steam lines
- Sparkles
- Hearts
- Stars
- Motion marks
- Simple emoticon-style faces

Only include decorations that naturally match the scene.

SPOTIFY GLASSMORPHISM UI

Add a refined Spotify-inspired music player overlay based on the mood of the photo.

The interface should feature:

- A translucent glassmorphism panel
- Soft background blur
- Subtle glowing edges
- Colors sampled from and matched to the original image

- A believable song title, artist name, album artwork, progress bar, and playback controls
- A soft ambient glow that blends naturally into the surrounding colors

Choose music that meaningfully matches the atmosphere of the image. Keep the player elegant, compact, and integrated into the composition without covering important subjects.

FINAL RESULT

The finished image should feel like a personal visual journal entry: expressive, intimate, thoughtfully annotated, and visually balanced. Preserve the realism of the original photo while making the handwritten notes and glowing music interface feel naturally layered onto it.
